  - 13) **Anti-inflammatory**

Note : Current prices are mentioned according to raw-materials price, if prices of raw-materials will be increase or decrease, prices will be effect due to raw-materials prices in future.

## Message

( For Distributors / Stockists / Retailers )

**Dear Friends,**

*I* personally felt so far as compare to foreign Market and their Pharmaceuticals companies in terms of Research and Development, Outsourcing and contract Manufacturing etc. capabilities at larger Prospects, we have not yet genuinely began progressing at India so far in greater scales, Since we have a huge ever growing Population, and I wish if our government should address this fact and needs to introduce some new economy reforms to develop Pharmaceuticals Industries here also to avail better health facilities .

*We* have a strong chance to rediscover our capabilities, and to attain maximum growth rate at very short span of time; and the finest example is our neighboring country china has overtaken the Pharmaceuticals Industry growth at highest level getting constant support system from government and banking sectors.

*I* am also looking forward for the new Joint-ventures, for Contract Manufacturing, Outsourcing and Research and Development at our Domestic Market for the upcoming years more purposely and dynamically and we are sure till 2009, we will be in the front rank of Indian Pharmaceuticals Industry in terms of revenue, Infrastructure and better Management systems of Logistics etc. and expected turn over will be 2600 Crores Indian Currency.

“I am highly thankful to all your supports led to our company so far”!

Thanking You,

For Taj Pharmaceuticals Ltd.,

(Dr. R.K. Singh)  
C.M.D

“ इस दुनियाँ में, जो सौ करोड़ आवादियों के बीच खो गया, उसे दुनियाँ याद नहीं रखती, तुम क्या हो ? सावित करो ! हाँ लोग तुम्हे पागल कहेंगे, लेकिन पूरा विश्व तुम्हे याद रखेगा”  
- Dr. R.K. Singh

## ALLOPATHIC PRODUCTS

### ABCAVIR

**Each tablet contains :**

Abacavir Sulphate ..... 300 mg

**Colour :** Approved colour used

**Indications :** Abcavir is used in combination with other medications to treat human immunodeficiency virus (HIV) infection in patients with or without acquired immunodeficiency syndrome (AIDS). Abcavir is in a class of antiviral medications called nucleoside reverse transcriptase inhibitors (NRTIs). It works by slowing the spread of HIV infection in the body. Abcavir is not a cure and may not decrease the number of HIV-related illnesses. Abcavir does not prevent the spread of HIV to other people. **Dosage :** Abcavir comes as a tablet and a solution (liquid) to take by mouth. It is usually taken twice a day with or without food. To help you remember to take abcavir, take it around the same time every day. Follow the directions on your prescription label carefully, and ask your doctor or pharmacist to explain any part you do not understand. Take abcavir exactly as directed. Do not take more or less of it or take it more often than prescribed by your doctor. Continue to take abcavir even if you feel well. Do not stop taking abcavir without consulting your doctor.

### ACTIVITAL

**Each Capsule Contains:**

Vitamin A ..... 2500IU  
 Vitamin B1 ..... 1 mg.  
 Vitamin B2..... 1.5mg.  
 Vitamin B3..... 10 mg.  
 Vitamin B5..... 5 mg.  
 Vitamin B6..... 1 mg.  
 Vitamin B12 ..... 1 mcg.  
 Vitamin C ..... 15 mg.  
 Vitamin D3 ..... 200IU  
 Vitamin E ..... 5 mg.  
 Folic Acid ..... 0.15 mg.  
 Calcium ..... 75 mg.  
 Phosphorus ..... 58mg. mg.  
 Ferrous Fumarate ..... 30 mg.  
 Zinc ..... 10 mg  
 Magnesium ..... 3 mg.  
 Potassium ..... 2 mg.  
 Copper ..... 0.5 mg.  
 Iodine ..... 0.1 mg.  
 Energy ..... 4.96 kcl.  
 Carbohydrate ..... 0.16g.  
 Protein ..... 0.03g.  
 Fat ..... 0.46 g.  
 Ginseng ..... 42.5 mg.

**Indications :** Activital is a comprehensive daily food supplement that has a balanced combination of vitamins, minerals and ginseng.

**Dosage :** Activital can be taken after the meals any time during the day but preferably should be taken after breakfast. In case you find it difficult to swallow the capsule with a liquid, you may cut it open, press the contents in a spoon and mix a little jam or honey before taking it. Activital can be taken by both male and females over 12 years of age. Activital is suitable for diabetics as it does not contain sugar.

**Each tablet contains: (1 mg)**  
Tolterodine trtrate ..... 1 mg  
Excipient ..... q.s.

**Each tablet contains: (2 mg)**  
Tolterodine trtrate ..... 2 mg  
Excipient ..... q.s.

**Each tablet contains: (4 mg)**  
Tolterodine trtrate ..... 4 mg  
Excipient ..... q.s.

**Colour:** Approved colour used

**Indication:** Always stopping for a bathroom visit? Frequent, strong, sudden urges to go are symptoms of overactive bladder (OAB). The good news is that OAB is a real medical condition that can be treated. Relief starts with DEZROL LA a medicine that helps calm the bladder muscle that causes those frequent, sudden urges. Just one pill works for 24 hours to relieve symptoms all day and all night. It's the brand doctors prescribe most for OAB.\*

**Dosages & Safety Information:** You should not take DEZROL LA if you have certain types of stomach problems, glaucoma, or if you have trouble passing urine. DEZROL LA is generally well tolerated. The most common side effect is dry mouth. Other side effects may include headache, constipation, and abdominal pain.

**DIAROS**

**Each film-coated tablet contains:**  
Rosiglitazone maleate ..... 2mg  
Glimepiride .....1mg

**Colour:** Approved colour used

**Indication:** Rosiglitazone, combined with diet, exercise, weight control and cessation of smoking is used for treating type II diabetes. Rosiglitazone may be used alone or in combination with other types of anti-diabetic drugs such as metformin or sulfonylureas as well as insulin. Since it requires naturally-secreted insulin to be effective, rosiglitazone is not recommended for use in type I diabetes where the amount of insulin is very low or absent.

**Dosage:** Rosiglitazone may be taken once or twice daily, with or without meals. Daily doses range from 4 to 8 mg either with or without other antidiabetic medications. Studies do not demonstrate additional effects when more than 8mg per day are taken.

**DITANEX - 250 mg / 400 mg**

Each capsule contains : (250 mg)

Didanosine.....	250 mg
-----------------	--------

Each capsule contains : (400 mg)

Didanosine.....	400 mg
-----------------	--------

**Indications:** Didanosine (di-DAN-oe-seen) (also known as ddl) is used in the treatment of the infection caused by the human immunodeficiency virus (HIV). HIV is the virus responsible for acquired immune deficiency syndrome (AIDS). Didanosine (ddl) will not cure or prevent HIV infection or AIDS; however, it helps keep HIV from reproducing and appears to slow down the destruction of the immune system. This may help delay the development of problems usually related to AIDS or HIV disease. Didanosine will not keep you from spreading HIV to other people. People who receive this medicine may continue to have the problems usually related to AIDS or HIV disease.

**Colour:** Approved colour used

**Dosage:** As per the physician's advice.

**MIFEBORT**

**Each film coated tablet contains:**

Mifepristone.....200 mg

Excipients.....q.s.

**Colour:** Approved colour used. **Indications :** Mifebort is indicated for the medical termination of intrauterine pregnancy through 49 days pregnancy. For purposes of this treatment, pregnancy is dated from the first day of the last menstrual period in a presumed 28 day cycle with ovulation occurring at mid-cycle. Any intrauterine device [IUD] should be removed before treatment with Mifebort begins. Patients taking Mifebort must take 400 mg of Misobort two days after taking mifepristone unless a complete abortion has already been confirmed before that time (see Dosage And Administration). Pregnancy termination by surgery is recommended in cases when Mifebort and Misobort fail to cause termination of intrauterine pregnancy. **Dosage :** Treatment with Mifebort and Misobort for the termination of pregnancy requires three office visits by the patient. Mifebort may be administered only in a clinic, medical office, or hospital, by or under the supervision of a gynecologist, able to assess the gestational age of an embryo and to diagnose ectopic pregnancies. Gynecologist must also be able to provide surgical intervention in cases of incomplete abortion or severe bleeding, if necessary. Mifebort. Unless abortion has occurred and has been confirmed by clinical examination or ultrasonographic scan, the patient takes two 200 mg tablets (400 mg) of Misobort orally.

### TOCODER

Each soft-gel capsule contains:

Vitamin E B.P.....400 mg

**Colour:** Approved colour used.

**Indication :** Vitamin E is a powerful antioxidant that works to protect cells in the body from damage caused by free radicals. Free radicals are highly reactive substances that result from normal metabolism as well as from exposure to factors in the environment like cigarette smoke and ultraviolet light. They cause damage to body cells by attacking the cell's membranes, proteins and DNA and ultimately contribute to the development of health problems such as heart disease and cancer. Vitamin E is especially important in protecting blood cells, the nervous system, skeletal muscle and the retinas in the eyes from free radical damage.

**Dosage :** As per the physician's advice.

Presentations :	MRP	Retailer	Stockist

## Vitamin E Capsules

- ☞ Vitamin E is an anti-oxidant that protects body cells from destruction by preventing them from reacting with oxygen.
- ☞ It is a natural, non-toxic blood thinner, preventing clots from forming in your blood so you don't get heart attacks or strokes.
- ☞ Vitamin E also allows muscle cells to function effectively on small amounts of oxygen. This can boost your energy level,

### VITALIZER

Each tablet contains:

Vitamin A Acetate.....5000 I.U  
Vitamin D3.....400I.U  
Vitamin E Acetate.....15 I.U  
Vitamin B12.....10 mcg  
Folic Acid.....1000 mcg  
Vitamin C.....150 mg  
Ferrous fumarate.....73 mg  
Zinc Sulphate.....84.20 mg  
Copper Sulphate.....8.00 mg  
Magnese Sulphate.....480mg  
Magnesium Sul.....12.32 mg  
Potassium Iodide.....590 mcg  
Ashwagandha.....50 mg

**Colour:** Approved colour used. **Indications :** Maximum Performance Formula for keeps your energized round the clock. It helps to increase sperm Count in Male & Female. It generate the fertility. **Dosage :** One tablet every morning

Presentations :	MRP	Retailer	Stockist
30 tablets	161.40	129.12	116.20

### ZEVADEX

Each capsule contains:

Zinc sulfate monohydrate USP.....41.4 mg  
(Equivalent to 15mg of elemental zinc)  
Thiamine Mononitrate I.P.....10 mg  
Vitamin B2 I.P.....10 mg  
Nicotinamide I.P.....100 mg  
Vitamin B6 I.P.....3.0 mg  
Vitamin B12 I.P.....15.0 mcg  
Calcium Pantothenatel.P.....50 mg  
Vitamin C I.P .....150 mg  
Folic Acid I.P .....500 mcg  
Biotin USP.....100 mcg

**Colours:** Erytarosine, Brilliant Blue FCF Tartrazine Sunset Yellow FCF and Titanium Dioxide in empty capsule shells. **Indications :** Zevadex can simplify the process of taking individual B vitamins for a range of ailments including alcoholism, depression, diabetes, hair problems, lupus, multiple sclerosis, and stress. **Dosage :** As per the physician's advice.

## DRY SYRUP

Cefixime USP as Trihydrate  
equivalent to  
Anhydrous Cefixime 50 mg.

• Product • Compositions • Indications • Dosage • Contents

### ZEDVIN-T

Each tablet contains :

Zidovudine USP.....300 mg

Colour: Approved colour used.

**Indications :** Zedvin-T as part of combination therapy is indicated for the treatment of HIV infection when antiretroviral therapy is warranted. Maternal-Fetal HIV Transmission: Zedvin-T is also indicated for the prevention of maternal-fetal HIV transmission. The safety of zidovudine for the mother or foetus during the first trimester of pregnancy has not been assessed. **Dosage :** As per the physician's advice.

Presentations :	MRP	Retailer	Stockist
10 tablets	153.00	122.40	110.16

### ZITHROMIN - 100 ml / 200 ml (Syrup)

Each 5ml contains: (100 mg)

Azithromycin DihydrateUSP  
Equivalent to Azithromycin.....100mg  
Flavoured syrupy base.....q.s.

Each 5ml contains: (200 mg)

Azithromycin DihydrateUSP  
Equivalent to Azithromycin.....200mg  
Flavoured syrupy base.....q.s.

Colour: Approved colour used.

**Dosage :** As per the Physician's advice

**Indication:** Azithromycin ( Brand Name Zithromin) is an antibiotic used to treat certain infections caused by bacteria, such as pneumonia; venereal disease (VD); and ear, lung, skin, and throat infections.

Presentations :	MRP	Retailer	Stockist

### ALPHEN

Each Injection contains:

Melphalan .....50 mg

**Indications :** Breast carcinoma, multiple myeloma, advanced ovarian carcinoma, other neoplasms in combination with surgery. Malignant melanoma, polycythaemia vera. **Dosage :** Adults: Multiple myeloma: Usual oral dose 6mg/day. Maintenance dose 2mg/day.

Presentations:	MRP	Retailer	Stockist
50mg inj.	1910.85	1528.68	1375.80

### ARTEMOTIAL

Each 2ml contains:

a-β Arteether ..... 150 mg

Arachis Oil I.P. ....q.s.

**Indications :** Artemotial is concentrated in parasitized erythrocytes. The functional group responsible for anti-malarial activity of a / β arteether is endoperoxide bridge. Iron from the digested haemoglobin of the parasite's victim reduces this bridge, releasing a highly reactive free radical iron species which causes lysis of the parasitic cell. **Dosage :** As Directed by physician

Presentations :	MRP	Retailer	Stockist
2 ml.	99.00	79.20	71.28

### ATROPINE Ampoule/ Injection

Each Ampule Contains :

ATROPINE SULPHATE ..... 6 mg

Each Vial Contains :

ATROPINE SULPHATE .....30 mg

**Indications :** Preanesthetic medication to restore cardiac rate and arterial pressure during anesthesia, lessens the degree of atrioventricular (A-V) heart block due to digitalis, to overcome sever bradycardia and syncope, as an antidote (with external cardiac massage) for cardiovascular collapse from the injudicious use of a choline ester (cholinergic) drug, in the treatment of anticholinesterase poisoning from organophosphorus insecticides, and as an antidote for the "rapid" type of mushroom poisoning. **Dosage :** The average adult dose is 0.5 mg (5ml of a 0.1mg/ml solution), range 0.4 to 0.6 mg (4 to 6 ml).

Presentations :	MRP	Retailer	Stockist

### DUKINASE

Each Vial Contains :

Urokinase.....250000 i.u.

Each Vial Contains :

Urokinase.....500000 i.u.

Each Vial Contains :

Urokinase.....750000 i.u.

Each Vial Contains :

Urokinase.....1e+006 i.u.

**Indications :** i) pulmonary embolism ii) acute myocardial infarction in patients in whom earlier streptokinase has been used. iii) deep vein thrombosis iv) lysis of fibrin or blood deposits in the anterior chamber of the eye. **USES:** This medication is a protein (enzyme) which works to break up and dissolve blood clots which can block arteries. It is used in the treatment of very serious blood clots in lung blood vessels (pulmonary embolism). **HOW TO USE:** This medication is given by injection by a health care professional. It is important this medication be used as prescribed. It is most effective when administered as soon as possible after symptoms appear (e.g., within 6 hours of onset of chest pain).

**WARNING:** Internal bleeding may be more difficult to control with this medication than with other anticoagulant therapy. This medication must be used in a hospital setting. It should be started as soon as possible after lung blood clots have been noticed (pulmonary embolism), preferably within 7 days. Urokinase should be given within 6 hours of the first symptoms of a heart attack associated with evolving myocardial infarction.

**Dosage MI:** 2.5 lac IU IV over 10 mins. followed by 5 lac IU over next 60 mins. (stop in between if full recanalization occurs).

CADROL is a drug belonging to the group of beta blockers, a class of drugs used primarily in cardiovascular diseases.

**CADROL given additionally to standard therapy reduces mortality in patients with chronic heart failure.**

5 mg or 10 mg once daily although doses up to 20 mg daily have been prescribed. Some patients, for example, those with marked kidney, liver or lung diseases, may be given 2.5 mg daily. CADROL can be taken with or without food. CADROL blocks these chemicals, which cause the heart to beat with less force and pump out less blood. Blood vessels are relaxed and widened allowing blood pressure to decrease.

# TAJ PHARMA

## CITY INDIA

### Overview of the Project:

This is the most glorious moment of our company as we are establishing first ever Pharma city (a division of Taj Pharmaceuticals Ltd.) in the whole world that will consist all the manufacturing facilities within the same campus. Our company has felt that most of the pharmaceuticals companies in India dissipate a lot of time in outsourcing different types of products from the different manufacturers of India, and so far there are no facilities in the world available where you can manufacture most of the products within the same campus.

The Indian pharmaceutical sector has come a long way, from being almost non-existent during the 1970s to a prominent provider of health care products, meeting almost 90 per cent of the country's pharmaceutical needs today. The total Indian market at present is valued at about US\$6.4 billion and is expected to grow to US\$25 billion by 2010.

Taj Pharmaceutical Limited Mega Project is approved by USA - FDA, MCA - FDA (Britain) & WHO - GMP. Scheduled 'M' certified by the Government of India.

So, this prominent industry will be sure going to prove golden swan of the Indian economy.

### Silent features of Taj Pharmacy:

A) That, it will consist world class Tablet Manufacturing plant/ Capsule Manufacturing Plant/ Soft Gelling Plant/Cosmetic Plant/ Injection Plant/Bio Technology Park etc. and these plants will offer facilities for manufacturing almost every range of medicines within the same roof. So, that will save the additional costs of the transportation as well as harassment of the marketing company as we will avail above mentioned products portfolio within the same campus in resulting more efficiency of the company's products and their qualities.

B) That, you may manufacture your company's product for the domestic as well as international market as per your packing, quantity and quality preference.

### Supplementary Benefits:

A) That, Taj Pharmacy will organize monthly trade fair within its campus where retailers/stockiest/Marketer etc. can buy consignments of medicines on manufacturing cost. (Conditions Apply)

B) That, Taj Pharmacy will install world class library which will have numerous books for its visitors and staff where they can gain more knowledge about Pharma world. & we will have a 'Guest House' with all the modern amenities which will suit both the Indian as well as foreign associates of our company and stockiest/marketer etc. and you may book that place in advance before visiting the Taj Pharmacy to ensure the availability of place. All the expenses such as food, traveling etc. will be bear by the company.

C) That, we will avail all the technical help and modern technology to those companies who wish to excel or set up manufacturing units in very limited resources where its financial or infrastructure development and with the help of our technology they will be able to attain highest growth in manufacturing and marketing with their own limited resources.

### R & D Department:

Our company will have all the modern equipments with world class lab as per the norms of latest scientific guidelines. We will avail various sponsorships, scholarships to the researcher those who wish to excel R & D in Pharmaceuticals Industry. We will offer lower cost of R & D Facilities to companies round the globe those who want to pursue their products R & D in our lab.

### Doctor's Corner:

A) That, our company will offer financial help / sponsorships to those doctors who want to excel in R & D department Pharma Industry.

B) That, our company is also availing loans to the doctors for their Homes/Hospitals/Nursing Homes etc. for further details of this scheme you may visit our website: [www.tajfordoctors.com](http://www.tajfordoctors.com), and you download form from the website and send to us.

### Evaluations of Taj Pharmacy:

Pharma is right now one of the most happening sectors in the economy. The domestic players are competing fiercely with the foreign players. The opportunity is huge and domestic players are gearing up for it. The results will come with time.
